

FOOD-SAFE EDIBLE INK CARTRIDGES

Food-Safe Edible Ink Cartridges

Certified safe for direct printing on consumable surfaces

Why Choose Our Edible Inks?

Key Features

- ✓ Compatible with all EVEBOT Coffee Printers & PrintPen
- ✓ Vibrant colors that dry in 0.8 seconds
- ✓ Neutral taste profile (odorless & flavorless)

Technical Specifications

Shelf Life (Unopened):	12 months
After Opening:	Use within 6 months
Storage Temp:	10°C - 25°C / 50°F - 77°F

Intelligent Expiration Management

For FB1/FB2/FB3 cartridges used with desktop Coffee Printers:

- 10-day advance notification on printer screen
- Automatic locking on expiration date

This safety feature ensures absolute compliance with food hygiene standards.[Shop Compatible Printers →](#)

Supported Applications

Coffee & Latte Art

Beer Foam Printing

Milkshakes & Smoothies

Burger Buns

Cookies & Biscuits

Puddings & Custards

Most beverages with foam on the surface can be printed. The denser the foam, the better the effect. Food surfaces that are smooth and stable can also be printed. Users can try items not listed on their own.
